

Group 2 Breakout

Region's 4 and 5

Top 10

1. Coding manual needs clarification.
 - More informative (e.g., lat/long info)
 - Standardized site monitor form (so techs know what info you need)
 - Need guidance for locational/geo-common data
2. Report progress meter showing percent completeness of the report

Top 10 (cont'd)

3. Requested new reports

- Design Value
- Speciation
- Toxics
- Quarterly (Pb)
- Monitor P/A completeness
- Exceptional Event
- Trends

4. Cancel report/session option should immediately cancel the job

Top 10 (cont'd)

- 5. (a) Further clarify on-screen error messages
(b) Eliminate blank pages in Quicklook Report

- 7. (a) Separate column on the report for QC flags on the report
 - Flags (QC) are physically too close to the data field
- (b) Option to create workfiles and raw data extract files without null codes

Top 10 (cont'd)

9. (a) Both parameter code and name should appear on all reports
- (b) Need workfiles for the following:
- Raw data
 - AQI summary / AQI
 - Frequency distribution/Reduced Frequency
 - Max. Value
